PROFESSIONAL SUMMARY

Computer Science undergraduate and aspiring Full-Stack Developer with hands-on experience in React.js, Java, Spring Boot, Python, and SQL. Experienced in building responsive web applications, REST APIs, and data-driven projects, with a strong foundation in OOP, databases, and problem-solving.

EDUCATION

United Institute of Technology, Prayagraj — Oct 2023 – Expected 2027
B.Tech. in Computer Science & Engineering — *CGPA: 6.8/10*

SKILLS

Languages: Java, Python, JavaScript
Backend: Spring Boot, REST APIs
Libraries: Pandas, NumPy, Scikit-learn
Tools: Git, GitHub, VS Code, IntelliJ IDEA
Frontend: HTML, CSS, React.js
Data: Power BI, Data Analysis, Data Visualization
Database: SQL, MySQL
Concepts: OOP, Data Structures, Responsive Web Development

WORK EXPERIENCE

Industrial Training Internship – Python with Data Analytics — **May 2026 – Jul 2026**
Techpile Technology Pvt. Ltd. — *Offline*

- Applied Python programming and data analysis techniques to work with datasets and derive meaningful insights.
- Created data visualizations and interactive dashboards using Power BI to present analytical findings.

PBEL Virtual Internship – IBM — **Jul 2025 – Aug 2025**
Remote

- Completed a project-based internship focused on web and mobile development concepts and practical application development.

Summer Training – Core Java — **Jul 2024 – Aug 2024**
United Institute of Technology — *On Campus*

- Developed foundational Java programming skills with emphasis on OOP concepts and application development.

PROJECTS

RentEase – PG & Room Finder Platform — **2026**

- Developed a full-stack PG and room discovery platform with property search, filtering, authentication, booking requests, and owner dashboard.
- **Tech:** React.js, Java, Spring Boot, MySQL, REST APIs

Weather Forecast Application — **2025**

- Developed a responsive weather application displaying real-time weather information through the OpenWeather API.
- **Tech:** React.js, JavaScript, HTML, CSS, REST API

Salary Prediction System — **2024**

- Developed a machine learning model to predict salary values using regression techniques and prepared data for model training.
- **Tech:** Python, Pandas, NumPy, Scikit-learn

Personal Portfolio Website — **2024**

- Developed a responsive portfolio website to showcase projects, technical skills, and professional information.
- **Tech:** HTML, CSS, JavaScript

CERTIFICATIONS & ACHIEVEMENTS

Techpile: Industrial Training – Python with Data Analytics
PBEL: Web, Mobile Development & Marketing Intelligence
Achievement: Received stipend during IBM PBEL Internship
IBM: PBEL Virtual Internship Program
United Institute of Technology: Core Java Training

Last Updated: August 2026
